Summary

I develop in multiple platforms within the SAP landscape. I also develop in the SAP NW PI integration suite with experience in others such as Mulesoft, IIB and WeeScript. I'm an avid developer in Cross Platform Hybrid Mobile with the thought process of code it once and give it to all. I have over 10 years' experience with SAP Products like ECC, NW MDM, NW PI in configuration and development with over 4 years of that time being in Integration either with in SAP or other Integration models.
